

Garages & Carports

QUALITY DESIGN THAT'S IDEAL FOR YOU

Ideal Quality Buildings

With nearly a half a century of experience of building in New Zealand and over 45,000 buildings under our belt, we're one of the country's most recognised and respected building companies.

A proud heritage

Since 1964, we have been delivering quality buildings that stand the test of time. From humble beginnings in Auckland nearly 50 years ago, we've grown into a nationwide network of local builders. This gives you the best of both worlds, a dedicated local service by an experienced builder and the support of Ideal's years of industry experience.

Purpose built for your lifestyle

We offer a wide range of buildings. These include carports, garages, sleepouts and cottages in a wide range of complementary materials, colours and finishes.

Buildings we'd be proud to call our own

At Ideal, we understand that home is where the heart is and that's why we put as much care into creating your new building as we would our own. Our tradespeople are all highly-skilled locals who stand behind their workmanship one hundred percent.

The original Ideal factory located at Gavin Street, Penrose Auckland

Inspiration on call

Whether it's the man-cave you've always dreamed of or an extra room for the kids, you're only limited by your budget and imagination. We can help you realise your vision and advise on those all-important finishing touches.

Designed for the New Zealand environment

All the materials used in Ideal buildings are especially designed and tested to meet the demands of our unique New Zealand environment.

Supply and design partners

We are proud to work in partnership with some of the best building brands in the country. All are specialists in what they provide.

The Ideal Experience

We pride ourselves on delivering quality solutions for your new garage or carport. Whether you choose from our existing plans or simply use them as inspiration for your own design, our team will be with you every step of the way to bring your build to life.

Care and compliance you can rely on

All our Ideal distributors employ licensed building practitioners within their businesses. These skilled tradespeople undergo continuous skills maintenance to keep up-to-date with the latest building trends and compliance standards.

We provide you

- ▶ A detailed, free, on-site consultation to work out your requirements
- ▶ Free, no-obligation quotes
- ▶ Council consents, backed by local knowledge
- ▶ Removal of your old garage (if needed) and clearing and excavating your site
- ▶ Preparation and laying the floor
- ▶ Full construction including all plumbing, drainage and electrical work

Warranty

- ▶ Our buildings have been engineered to ensure they meet or exceed NZ Building Code requirements
- ▶ We offer a 5-year warranty on workmanship plus extensive product warranties
- ▶ We recommend regular maintenance to keep your building in great order

Production

- ▶ Modular components for each Ideal building are produced at our dedicated facility and are ready to assemble on-site – this saves the builder time and saves you money.

Friendly, honest advice and service second to none

We believe that we are only as good as our last happy customer! From the moment you pick up the phone right through to the final inspection, we aim to give all our customers an Ideal experience. We believe in keeping the process straightforward so you know what's happening with your project from beginning to end.

Single Garages

“Ideal’s service far exceeded our expectations – a great team to work with.”

Single garages are a great option when space or budget is tight. We have a variety of standard plans to choose from or we can build you something completely unique.

Our single garages can also be extended to accommodate up to two cars, (one parked behind the other) or add storage or a handy sleepout area.

Double Garages

“We were really pleased with the results. The garage has been built to a very high standard and looks fantastic – it really added value to the property!”

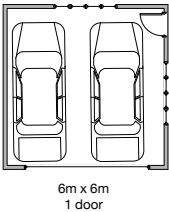

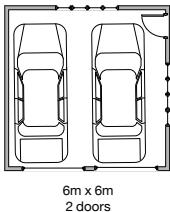

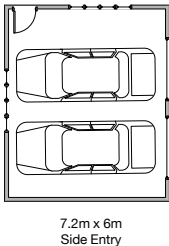

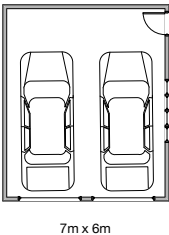

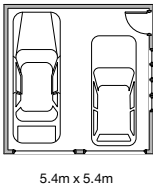

With so many two-car families, a double garage can add value to a property as well as being handy right now! Double garages offer secure storage for two vehicles and a bit

more room for the all-important beer fridge or somewhere to store the kayak and the kid's bikes. As with all Ideal buildings, how big you choose to go is simply up to you!

- A)** 7.2m x 6m garage, 25-degree roof pitch, 4.8m wide sectional door in gable-end, cladding up gable with feature window.
- B)** 6m x 6m garage, 2.1m stud, 2 x 2.4m wide roller doors in gable end, board and batten gable end cladding.
- C)** 7.2m x 6m garage, 2.4m stud, 2 roller doors in the side wall.
- D)** 9m x 6m garage with 4.8m wide sectional door in front, deluxe cladding, front soffit.
- E)** 6m x 6m garage, 25-degree roof pitch, 2.1m stud, 1 x 4.8m wide sectional door in gable end.

Examples of our popular double garage floorplans – all can be customised to suit your needs.

Garage Workshops

“My Ideal workshop is spot on – so glad I finally got my man cave!”

Love DIY or a hands-on hobbyist? Or perhaps you're looking for a secure place to keep your tools – a combined garage/workshop is exactly what you need. Our flexible designs easily fit a workbench and tools plus the family car as well. We can also supply and install garage storage systems to fit out your Ideal garage workshop.

Our maximum standard size is 18m long x 9m wide, but we can specifically engineer and build something larger, depending on what you need - e.g. tack sheds or boat sheds. Our standard stud height is 2.1m, which is suitable for most standard cars, however we can easily build higher stud height options 2.4m, 2.7m, 3.0m

Garage Sleepouts

“Fantastic job – completed on time and on budget!”

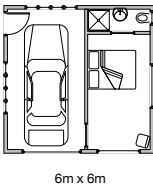

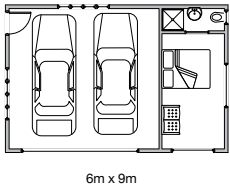

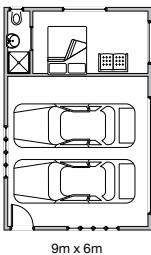

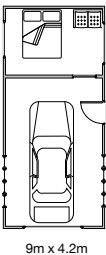

Ideal’s range of garage sleepouts are the perfect solution to changing family and lifestyle needs. Our wide range of garaging formats can be turned into usable living

spaces with ensuites. Garage sleepouts are a great option for young families who need extra room, or for home businesses that need an office space.

- A)** 9m x 6m garage sleepout, 8-degree monopitch roof, with single sectional door and aluminium joinery.
- B)** 12m x 9m garage sleepout, Smooth Cream deluxe cladding with Titania corrugate roof.
- C)** 9m x 6m garage sleepout with verandah, Smooth Cream deluxe cladding with Scoria 6-rib roof.
- D)** 6m x 6m garage sleepout, half garage / half sleepout, side-entry roller door and ranchslider, Zincalume deluxe cladding with Ironsand roof.
- E)** 9m x 6m garage sleepout, side entry roller door and ranchslider, verandah on posts for weather protection.
- F)** Interior of a one bedroom sleepout

Examples of our popular garage sleepout floorplans – all can be customised to suit your needs.

Custom Design

“The team at Ideal were great to work with. After going through the concepts – anything seemed possible.”

A

As well as having a tried and tested range of standard plans, we can also create something completely unique or sympathetic to your existing architecture. We can talk over your ideas and include special wall or roof claddings, a particular roof pitch, specific foundation requirements or a whole host of other custom-design options.

B

D

A) 8.4m x 6m garage with 8-degree monopitch roof with James Hardie Linea cladding.

B) Double garage with workshop – 9m x 6m, 2.4 stud with 25-degree roof pitch, cedar weatherboard cladding to match house.

C) 10.2m x 6m garage utility, 2.4m stud height with 6-degree monopitch roof, clad with timber weatherboard.

D) 7.2m x 7.8m garage workshop, 2.7m stud height with lean-to side extension. Custom timber joinery to match existing house.

E) Garage clad in horizontal corrugate and Shadowclad ply to match house.

F) Custom design foundations for a garage on a sloping site.

F

Utility Sheds

These handy buildings are under 10m² in floor space, so do not require a building consent, however they must satisfy council rules and regulations which Ideal can advise you on. Utility sheds make great storage for tools, equipment, garden or lifestyle block chemicals – anything that you need to keep secure and protected.

3m x 3m sleepout with aluminium door in gable end, 2.1m stud, Desert Sand walls with Permanent Green roof

4.2m x 2.4m utility shed with roller door in gable end and access door in side wall, 2.1m stud, Titania walls and Ironsand roof

3m x 3m utility shed with internal linings, roller door in gable end, 3m stud, Mist Green walls and roof

3m x 3m utility shed with roller door in gable end and access door in side wall, 2.4m stud, Zinc walls and roof

Carports

Carports are a cost-effective way to protect your vehicle from the elements and add value to your home. They're also a good option for sites where a garage would restrict views and access. Our gabled or flat-roofed carports are available as singles or doubles, freestanding or attached to other buildings or garages. Customised designs are also available.

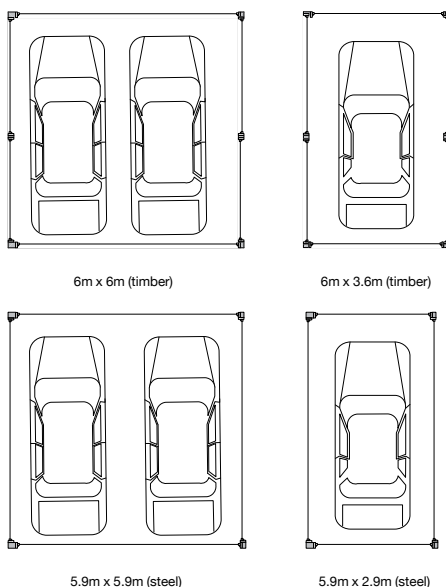

6m x 3.6m Single timber gable carport

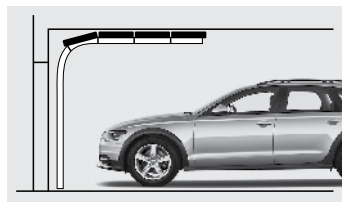

5.9m x 5.9m Double steel flat roof carport

6m x 6m Double timber gable carport

Quality Materials

Quality Roofing and Wall Cladding

Ideal Buildings exclusively use genuine New Zealand Colorsteel® and Zincalume®. Roofs are available in either six-rib or corrugate profile, and four-wall cladding profiles are also available.

Superior Quality Garage Doors

All Ideal buildings are fitted with a top-quality roller or sectional door maximising strength, security and good looks. Choose from a wide range of profiles in an extensive colour range. A range of door clearance heights is available, please visit www.idealbuildings.co.nz for more information.

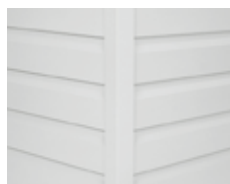

Quality Frames and Trusses

All Ideal buildings are constructed with high-strength, kiln-dried Laserframe structural timber treated to H1.2 level. We have two ranges of buildings to choose from, The Thrifty, a quality entry level garage or workshop for use in a medium or high wind zone with wall studs at 1000mm centres.

The Classic range offers homeowners a huge range of garaging options plus the ability to have the building lined with habitable spaces. The stud centres are at 600mm, which allows construction up to extra high wind zones.

Extra Features

We offer a number of additional features to add value and convenience to your building. Our experienced, knowledgeable team is more than happy to recommend the best options for the job.

Aluminium Joinery

A wide range of aluminum windows and doors are available to enhance your Ideal building. A full colour chart is available upon request.

Garaport

Extend your garage space front, back or side with a Garaport – a useful space for storing that extra vehicle, trailer or caravan.

Timber floors

Building your sleepout on a timber floor gives you the flexibility to relocate the building at a future date if needed. A timber floor can also be used on a sloping site, while a deck can be added to extend your living space.

Verandahs

A verandah is available as an optional extra on most Ideal buildings. These add protection from the weather as well as giving you an extended living space. Verandahs can be self-supporting or supported on a beam and posts.

Garage door openers

Add a quality Garador overhead garage door opener to your door for convenience and security. Ideal specifies the GDO 6 model for Roller doors and GDO-11 for sectional doors.

Roof pitch

Choose from a gable or monopitch roof design. Gable roof options start at 15-degrees with higher pitches available to match your existing buildings. A monopitch roof is available with an 8-degree pitch.

Stud heights

There are four stud heights available to suit your vehicle and storage needs. The Thrifty range is available in 2.1m and 2.4m, and the Classic range available in 2.1m, 2.4m, 2.7m and 3.0m.

Skylights

Add a skylight to your garage roof to let natural light and sun enter the building. Ideal for workshops or stables.

Gable finishes

Board and batten or gable cladding is available with an optional soffit (overhang).
